

COMMENCE SOCIAL SEARCH

A new Social Search feature enables you to search for contact information on popular social search sites like Twitter, Facebook and LinkedIn. You can add these social links directly into Commence RM 7.1 and navigate to a social user's profile.

- Presents a modern task pane window

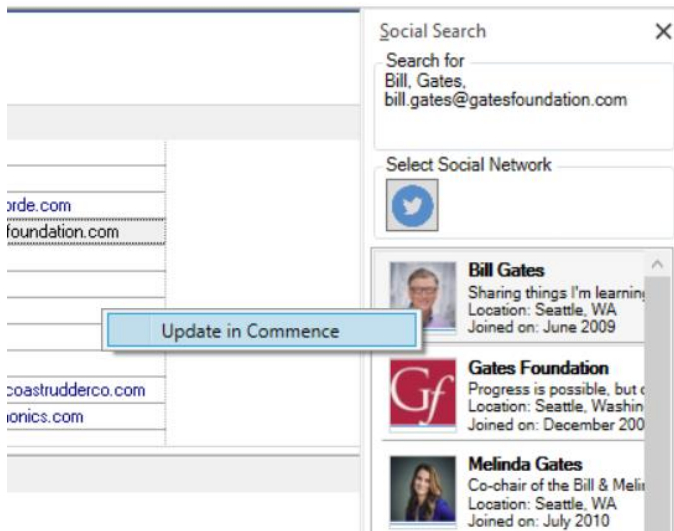

The screenshot displays the Commence - TutorialDB application interface. The main window shows a list of contacts with columns for Contact, Account, Phone #, Ext, Mobile #, Home #, Fax #, and E-mail. The contact 'Gates, Bill' is selected. A 'Social Search' task pane is open on the right, showing search results for 'Bill Gates' on Twitter, Facebook, and LinkedIn. The search text is 'Bill Gates' and the email address is 'bill.gates@gatesfoundation.com'.

- Easy to use and easy to launch a social search. The search text is pulled from the selected contact record and only requires the user to click on the social network icon to search for that contact's information.
- Social search results are based on the social network section in this example (Twitter)

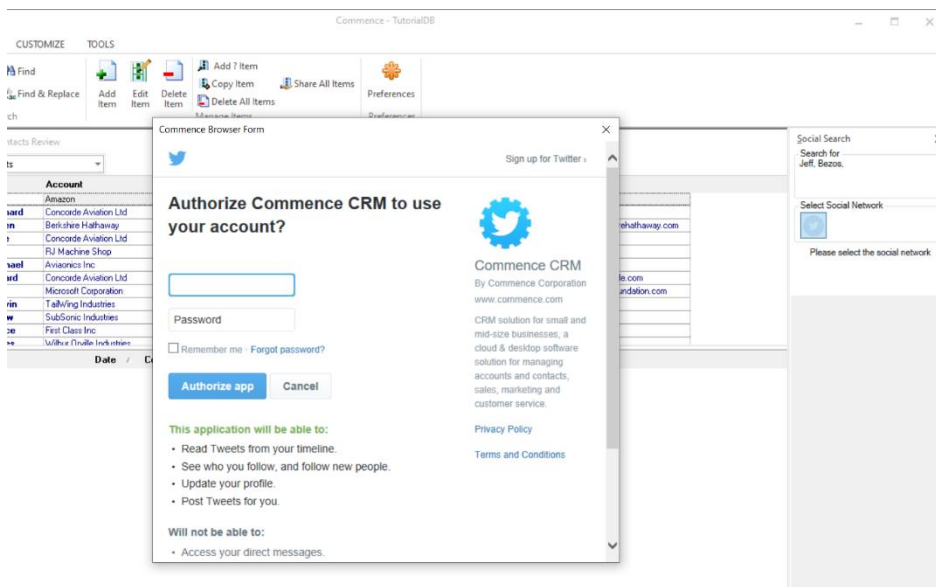

- You can explore social profile links by clicking on the profile picture. The social network page will be opened in your web browser.
- You can also update the contact record from the social search result by right-clicking the profile picture.
